GMMCO: POWERING PROGRESS IN INDIA'S MINING SECTOR

India's mining sector is undergoing a rapid transformation, driven by increasing demand and operational complexities. At the forefront of this evolution is Gmmco - a pioneer in mining and infrastructure solutions. With a 50-year legacy, a deep-rooted partnership with Caterpillar, and a footprint spanning 100+ locations across India, Gmmco is fueling progress through advanced equipment, digital innovation and unwavering service excellence.

ANUJ KEOLIYA
Senior Vice President, Surface Mining, Gmmco

TRUSTED PARTNERSHIPS, PROVEN PERFORMANCE
Gmmco's enduring relationships with leading public enterprises and private mining players across the country stand as a testament to our commitment to reliability, technical expertise and customer success.

SMARTER MACHINES FOR MODERN MINING
Gmmco delivers mining solutions tailored for Indian terrains and productivity goals. Recent introductions to our fleet include the CAT 777E and 789D off-highway trucks, CAT 24 large motor graders, CAT 793-240T trucks and the CAT 7495 HD electric rope shovel. These machines are designed for high payloads, fuel efficiency, and longer machine life, and come equipped with real-time health monitoring, productivity analytics, and predictive maintenance - enhancing safety while reducing total cost of ownership.
Made in India, Made for Mining: In alignment with the government of India's Make in India vision, Gmmco proudly offers a fully indigenous hauling product line. The CAT 789D and CAT 793D, manufactured in India, exemplify our commitment to building local capabilities and strengthening national self-reliance in mining infrastructure.

SAFETY FIRST, ALWAYS
Safety is integral to everything we do. Our equipment features built-in safety technologies Beyond the machine, Gmmco conducts site safety audits, operator training, and fosters a zero-incident safety culture, helping our customers operate safely

SKILLING THROUGH SIMULATION
Operator proficiency is key to safe, efficient mining. Through CAT (Simulated and Actual Training Solutions), Gmmco delivers immersive training experiences using high-fidelity simulators. These simulators replicate real mine conditions, helping operators master machine controls, practice fuel-efficient operations and build confidence - without risking safety or damaging assets.

A trendsetter in training: Gmmco leads the industry with its state-of-the-art platform, placing us at the forefront of mining workforce development. Our innovative simulation-based learning has set new benchmarks in operator training across India.

BUILT FOR MINING, TUNED FOR RESULTS

CAT machines are built for endurance - featuring reinforced structures, smart diagnostics and rugged reliability. For contractors bridging mining and infrastructure, we offer customized performance packages that balance power with cost efficiency.

REBUILD EXCELLENCE: SECOND LIFE, FIRST-CLASS PERFORMANCE

Gmmco's state-of-the-art Rebuild Centres in Nagpur and Chennai breathe new life into used machines. Adhering to global Caterpillar standards and ISO-certified practices, our rebuilds offer like-new performance at a fraction of the cost.

Driving sustainability: These product life-extension initiatives reduce environmental impact and support the Circular Economy, enabling customers to meet productivity goals while lowering their carbon footprint and capital expenditure.

RAPID SERVICE, REMOTE INTELLIGENCE

From our Workshop-on-Wheels that reaches deep into India's mining heartlands to Gmmco Assist, our proprietary machine monitoring tool, we ensure service never sleeps. Our mobile technicians and cloud-based diagnostics guarantee faster turnaround times and real-time machine health insights - keeping your operations running, no matter the location.

A DIGITAL-FIRST FUTURE

Gmmco is driving digital transformation across the mining lifecycle. By integrating IoT sensors, AI-driven diagnostics, and AR/VR-enabled training modules, we are redefining what's possible—from real-time fleet analytics to remote learning. Every digital initiative is designed to make mining safer, smarter, and more sustainable.

PARTNERING FOR TOMORROW

As India scales its mining ambitions, Gmmco stands ready. By combining world-class products, indigenous manufacturing, cutting-edge digital solutions, and round-the-clock service, we don't just support our customers—we partner in their growth. Together, we're powering progress - one mine at a time.
